- True to my word, Gary, I got this (link below) on Facebook but did not post to your page, although I am sharing it per usual and it may show up in your feed, but not unbidden on your page.
- I don't know what's it's going to take for you staffers to advocate for bees and people - - rather than pandering to chemical manufacturers, but I'm an optimist who doesn't believe in giving up when something's so clearly morally right.
- Banning Neonics is clearly the right thing to do.....do you have the guts to propose this to the suborned Board?
