

State Public Health Systems Assessment Committee Update

Alfred May, MPH
Public Health Liaison
Maine DHHS, Maine CDC
Downeast Public Health District

Statewide Coordinating Council Meeting: June 17, 2021

Current Status

- Original Dates: June 17, 22, 23, and 24
- Moved to August 10, 11, 12 and 17, 18, 19 for ten virtual sessions
- Ten standards correspond to the ten essential public health services
- Committee teams are developing list of key informants and participants per standard
 - State Level Assessment, not community, county, or district: who are the partners that interact at state level?
- Considering about forty to fifty people per standard session
- Prior to sessions, there will be informational sessions for zoom training and overview of the SPHSA instrument and process
- Request for facilitation services in process

Determining Session Participants

Model Standard 1.1 Planning and Implementation

- Operates a broad scope of surveillance and epidemiology to identify and analyze health problems and threats to the health of the state's population
- Establishes and maintains the capability to initiate enhanced surveillance in the event of an emergency
- Organizes its public and private laboratories into an effectively functioning laboratory system
- Uses public and private laboratories within and possibly outside of the state that have the capacity to analyze clinical and environmental specimens in the event of suspected exposures and disease outbreaks

Standard 1.2 Investigates and responds to public health problems and hazards

Standard 1.3 Performance Management and Quality Improvement

Standard 1.4 Public Health Capacity and Resources
